

I am a consumer. As a consumer, I make the decision whether I want to be called or not. I ABSOLUTELY DO NOT WANT TO BE CALLED! These telemarketers that complain that we are their consumers and are being kept from doing business with us don't seem to understand that we do not want them to call, we don't want to do business over the phone, we don't want to be bothered, and no - we ARE NOT their consumers! I don't want banks, government, or anyone else to tell me who can call me. I pay the phone bill, and as far as I'm concerned I am the only one with the right to make the decision. I want the no call list to remain, and I DO NOT WANT TO BE CALLED!

Thanks!
